Labor Offices in the United States and Canada

U.S. Department of Labor
Ray Marshall, Secretary

Employment Standards Administration
Donald Elisburg, Assistant Secretary

Office of Program Development and Accountability
Bulletin 177 (Revised 1978)
ESA—1437

Preface

This Directory lists Federal, State, and Provincial offices and agencies in the United States and Canada which are responsible for the performance of labor or labor-related functions. It does not include agencies below the State level.

In the preparation of the directory, the term "labor office" has been used in its broadest sense. Included are primary labor agencies such as departments or bureaus of labor, as well as other separate commissions, boards, or agencies with functional responsibility for such programs as employment services, including employment offices and unemployment compensation; regulation of private employment agencies; equal employment opportunity and civil rights; labor-management relations; mediation, and arbitration; occupational safety and health; mine safety; workers' compensation; and vocational

rehabilitation. The primary labor agency in each State frequently exercises major responsibility for labor functions. But the full scope of its program and the statutes it administers cannot necessarily be determined from the agency listing, except insofar as program duties are reflected in the title of each subordinate unit.

Parenthetical explanations have been added wherever the name of an agency does not describe its labor function.

All entries were submitted to the appropriate authority for verification. The Division of State Employment Standards welcomes being advised of any changes or additions for use in future revisions.

The directory was prepared by Thelma B. Smith under the general direction of Sylvia Weissbrodt, Director, Division of State Employment Standards, Employment Standards Administration.
